WITCHCRAFT FOR BEGINNERS

2027

MOON CALENDAR

Every new and full moon of the year, with times, for planning your workings

How to use it: circle the moons you want to work with, note what you plan on the lines beside each one, and pin the year page somewhere you'll see it. Times are US Eastern (EST/EDT); add or subtract for your own zone, and remember a moon near midnight may fall on a different date where you live.
